# CHAIN HOIST

# NORMAL CHAIN HOIST

**Lifting Height**  
3 Mtr. TO 50 Mtr. Or More

**Safe Working Load**  
1 Ton TO 20 Ton Or More

INOVIC Wire Rope Hoists are precision-engineered for high-performance industrial material handling applications. Designed in compliance with IS / DIN standards, they ensure durability, reliability, and long service life under continuous duty conditions.

Built with robust construction and enhanced safety features, the system includes a heavy-duty gearbox, fail-safe electromagnetic brakes, high-tensile wire rope, and a precision-machined rope drum for smooth and accurate lifting.

Equipped with limit switches, thermal motor protection, and overload safety systems, INOVIC Wire Rope Hoists deliver safe operation, reduced downtime, and optimum efficiency across various industrial environments.

Professional installation of Chain Hoist systems carried out with precise alignment, secure mounting, and strict adherence to industrial safety standards, ensuring reliable performance and long-term operational stability.

/2

Electric Chain Hoist equipped with motorized up-down lifting and left-right trolley travel, enabling smooth, precise, and efficient material handling across various industrial operations.

/3

FLP (Flameproof) Chain Hoist specifically engineered for hazardous environments containing flammable gases, vapors, or dust, with certified flameproof enclosures ensuring maximum safety and dependable performance.

/4

Robust and high-performance Chain Hoist designed for efficient lifting operations, offering strong load capacity, durable construction, and reliable performance for continuous industrial applications.

## High-Performance Chain Hoist Solutions

Delivering precision-engineered chain hoists designed for superior lifting performance, operational safety, and long-term industrial reliability.

# PRODUCT PORTFOLIO

## Electrical Chain Hoist

This is our standard Chain Hoist model, manufactured with proven engineering and strict quality standards.

We supply 80+ units per month, reflecting strong manufacturing capability and consistent market demand.

## Gear Trolley Chain Hoist

A Chain Hoist is used for safe and efficient material lifting in industrial applications.

It uses high-strength load chains, providing durability, smooth operation, and reliable performance for medium to heavy-duty lifting tasks.

## FLP Chain Hoist

An FLP (Flameproof) Chain Hoist is designed for hazardous areas with flammable gases, vapors, or dust. Electrical components are enclosed in flameproof housings to prevent ignition, and strong chains ensure safe lifting.

# TIMELINE

## L&T Group

### PROJECT 01

We have successfully completed the project for 14 Nos. EOT Cranes at L&T. The project was executed in accordance with technical specifications and industry standards, ensuring high performance, safety, and reliability.

## Afcons Infrastructure Ltd.

### PROJECT 03

We have successfully completed the supply and execution of 20 Nos. 20 Ton Capacity Wire Rope Hoists for Afcons Infrastructure Ltd. The project was carried out as per approved technical specifications, ensuring superior performance, operational safety, and long-term reliability.

## Railway Project

### PROJECT 02

We have successfully completed the execution of 6 Nos. Winch Machines (1050 Ton Capacity with 200 Meter Pulling Length) for a Railway Project. The equipment was manufactured and delivered in accordance with stringent technical and safety standards to ensure high performance under demanding site conditions.

## Mechelonic Engineers

### PROJECT 04

We have successfully completed the supply and execution of 42 Nos. 2-Ton Capacity Wire Rope Hoists for Mechelonic Engineers for a Railway Project. The project was carried out in accordance with approved technical specifications and railway safety standards, ensuring consistent performance, operational safety, and long-term durability.

**150+**

**EXPERIENCED PROFESSIONALS  
DRIVING OUR OPERATIONS.**

With **150+** experienced professionals driving our operations, we maintain complete control over every stage of manufacturing. Our skilled workforce combines technical knowledge, hands-on experience, and process discipline to deliver reliable cranes and hoisting solutions that meet international standards and customer expectations.
