JIB CRANE

PILLER MOUNTED JIB CRANE

Lifting Height
3 Mtr. TO 10 Mtr.

Safe Working Load
0.5 Ton TO 5 Ton

INOVIC Pillar Mounted Jib Cranes are precision-engineered for high-performance industrial material handling applications. Designed in compliance with IS / DIN standards, they ensure durability, reliability, and long service life under continuous duty conditions.

Built with robust construction and enhanced safety features, the system includes a heavy-duty pillar structure, reinforced rotating arm, precision slewing mechanism, and high-strength components for smooth and accurate load handling.

Rotation options are available from 90° up to 360°, with both manual and electrical operation, ensuring safe operation, reduced downtime, and optimum efficiency across various industrial environments.

WALL MOUNTED JIB CRANE

Lifting Height
3 Mtr. TO 10 Mtr.

Safe Working Load
0.5 Ton TO 5 Ton

INOVIC Wall Mounted Jib Cranes are precision-engineered for high-performance industrial material handling applications. Designed in compliance with IS / DIN standards, they ensure durability, reliability, and long service life under continuous duty conditions.

Built with robust construction and enhanced safety features, the system includes a heavy-duty wall mounting bracket, reinforced rotating arm, precision slewing mechanism, and high-strength components for smooth and accurate load handling.

The crane offers maximum 180° rotation, with both manual and electrical operation options, ensuring safe operation, reduced downtime, and efficient material handling in various industrial environments.

/1 Space-Efficient Lifting Solution
Ideal for localized material handling, maximizing productivity in limited workspace areas.

/2 180° / 270° / 360° Rotation Options
Flexible slewing range ensures smooth and efficient load movement across workstations.

/3 High Load Handling Accuracy
Designed for precise positioning, reducing manual effort and improving operational safety.

/4 Robust Structural Design
Manufactured with high-grade steel for durability, stability, and long service life.

High-Performance Jib Crane Solutions

Delivering precision-engineered jib cranes designed for efficient material handling, operational safety, and long-term industrial reliability.

PRODUCT PORTFOLIO

Pillar Mounted

A Pillar Mounted Jib Crane is used for safe and efficient material handling in industrial applications.

It has a rotating arm on a pillar for easy lifting and movement of loads within a working area.

Wall Mounted

A Wall Mounted Jib Crane is used for safe and efficient material handling in industrial applications.

It has a rotating arm mounted on a wall for easy lifting and movement of loads within a working area.

TIMELINE

L&T Group

PROJECT 01

We have successfully completed the project for 14 Nos. EOT Cranes at L&T. The project was executed in accordance with technical specifications and industry standards, ensuring high performance, safety, and reliability.

Afcons Infrastructure Ltd.

PROJECT 03

We have successfully completed the supply and execution of 20 Nos. 20 Ton Capacity Wire Rope Hoists for Afcons Infrastructure Ltd. The project was carried out as per approved technical specifications, ensuring superior performance, operational safety, and long-term reliability.

Railway Project

PROJECT 02

We have successfully completed the execution of 6 Nos. Winch Machines (1050 Ton Capacity with 200 Meter Pulling Length) for a Railway Project. The equipment was manufactured and delivered in accordance with stringent technical and safety standards to ensure high performance under demanding site conditions.

Mechelonic Engineers

PROJECT 04

We have successfully completed the supply and execution of 42 Nos. 2-Ton Capacity Wire Rope Hoists for Mechelonic Engineers for a Railway Project. The project was carried out in accordance with approved technical specifications and railway safety standards, ensuring consistent performance, operational safety, and long-term durability.

150+

EXPERIENCED PROFESSIONALS DRIVING OUR OPERATIONS.

With **150+** experienced professionals driving our operations, we maintain complete control over every stage of manufacturing. Our skilled workforce combines technical knowledge, hands-on experience, and process discipline to deliver reliable cranes and hoisting solutions that meet international standards and customer expectations.
